### Region

*Katavia is situated at the southern end of Rhodes. A further 8 km at the end of island are the extraordinary beaches of Prasonisi.*

*Katavia is a charming, traditional village, where you can find everything that large tourist centres don't offer. Friendly local Greeks, delicious traditional food, available from seven local restaurants, and a short distance to the windsurfing Mecca of Prasonisi are the undeniable benefits of the village and a guarantee of unforgettable moments.*

*The majority of tourists staying in Katavia are windsurfers and kites who spend the whole day on the sea. In the evenings there is a fantastic relaxed atmosphere; particularly after days that had a strong stable wind, which there are many of in Prasonisi!*

*It is worth adding that Katavia has 180 permanent inhabitants and the whole village is a protected Greek heritage site.*

*There are two grocery stores in Katavia, a health centre, an orthodox church, a children's play area and a property agency "K & K Association" ([www.kandk.gr](http://www.kandk.gr))*
